

Freight forwarding that keeps you informed

Sea, air and road cargo from Dubai, with one coordinator who knows your shipment.

Who we are

Elvora Shipping LLC is a freight forwarding and logistics company based in Bur Dubai. We move cargo for importers, exporters and traders between the UAE and the rest of the world, and we take care of the paperwork, customs and delivery around each shipment.

We keep things simple. You get a written quotation before we book, a named person to call, and updates at every milestone – not only when something goes wrong.

What we do

Ocean freight

Full and part containers, import and export, with booking, container release, documents and tracking.

Customs clearance

Declarations, duty calculation and document checks prepared with licensed customs brokers.

Air freight

Airport-to-airport and door-to-door for urgent, valuable and time-sensitive cargo.

Warehousing

Receiving, storage, picking and dispatch of customer cargo, with stock reports.

Road transport

Trucking inside the UAE and across the GCC, with trip planning and signed proof of delivery.

Special cargo

Out-of-gauge, temperature-sensitive and dangerous goods handled with qualified carriers and the required declarations.
