

Customs clearance without surprises

Documents checked before they are filed.

What we handle

- Import and export declarations
- HS code and valuation checks
- Duty and VAT calculation for your approval
- Permits and certificates for regulated goods
- Inspection coordination and release
- Delivery after clearance

Documents we normally need

- Commercial invoice and packing list
- Bill of lading or air waybill
- Delivery order from the carrier
- Certificate of origin, if applicable
- Import or export permits for controlled goods
- Your importer / exporter registration details

Why it matters

Most customs delays come from documents that do not match, an incorrect description or a missing permit. We compare every document before submission and call you if something looks wrong, so the cargo is not held while we wait for an answer.

Declarations are prepared and submitted with licensed customs brokers. Duty rates and requirements are set by the authorities and can change.

Ask for a quotation

Send us the origin, destination, cargo description, weight, volume and the date the cargo will be ready. You will get a written quotation, normally within one working day.
